

THE CHRONICLE-JOURNAL/SANDI KRASOWSKI

On the move

Forklift operator Al Cheetham moves a mammography machine with help from volunteers Ahti Tuomisto and George Sinclair, while project manager Larry Mutcher prepares for the next step of the move. Medical Equipment Modernization Opportunity (MEMO) volunteers

bought the machine on EBay and are building a portable mammography clinic on a trailer system. The group aims to raise \$10,000 to cover the costs of transporting it to Cuba.
